PROBLEM

Innovative technologies are costly to develop, require time and are expensive. Startups often, do not have the time or the resources to develop them. We provide them with our AI platform to improve their business and add value to their offering. We boot-trap them to grow rapidly. State of the art technology fast and efficiently.

SOLUTION

Our platform – open, bioinspired and with a collective math algorithm– takes care of three crucial concepts online: Social Networks, Big Data and Artificial Intelligence. We empower startups with the AI they need to engage in new business models.

TARGET MARKET

Startups with new ideas and synergy where our technology and algorithms can unleash a significant differential value

COMPETITORS

The main competitors are other companies dedicated to the world of artificial intelligence and machine learning models

Decisions

Individual
Decisions

**Every human being makes 35.000 conscious daily decisions...*

OBJECTIVE

Our goal is to accelerate startups, in an early stage, to obtain revenues and consolidate profits. We need to invest in marketing, develop the technology in other languages and be prepared to launch globally in 2019.

WHY INVEST?

- We have already developed the platform and proven that it is fully functional
- We have a winning team
- There is a huge opportunity in LATAM with our AI platform fully functional in Spanish
